To these books the students have free access.

—GRADUATION—

The English diploma will be given to students who pass a satisfactory written examination on the ordinary English branches together with English Literature, Mathematics, (as far as Trigonometry), History, Rhetoric, Logic, Natural Science, Moral and Mental Philosophy.

On similar conditions students may receive the Latin and the French diplomas.

——(‡)——

—DECLAMATIONS AND RECITATIONS—

Exercises in declamations by the young gentlemen are required every Friday afternoon. At same time recitations by the young ladies are also required.

COMPOSITIONS.

Once every three weeks a composition is written by all the pupils who have acquired any facility in the expression of thoughts in writing. In addition, daily, short exercises in composition are written by students in the English Grammar and Rhetoric classes. And occasional abstracts of history and reading lessons are made.

One Friday afternoon in each month is devoted to music rehearsals.

Calisthenics, to a limited extent, is taught by the Principal.

——(‡)——

—ANATOMY, PHYSIOLOGY AND HYGIENE—

This subject is thoroughly taught, both by text-book in class and by lectures. As the subject is now receiving much attention in all the schools, it has been thought best to give special instruction to those students who manifest a desire for information. Several students, who are preparing for the

position of teachers, have pursued this subject, during the present session, with marked benefit.

Illustrations have been given from the objects themselves which were being studied, and the use of the microscope has added much to the interest of the study.

——(‡)——

—NORMAL TEACHING—

For several years past there have been students attending this school who have received special training for the profession of teaching. And since the Principal first began teaching in Kinston more than forty of his pupils have become teachers.

——(‡)——

—LOCATION—

Kinston is most admirably situated as a place for a school of high grade. It is easy of access, being immediately upon the line of the Atlantic and North Carolina Railroad, and at the head of steam navigation on the Neuse.

The health of the town is better, perhaps, than the average town of the State. It is remarkably free from the visitations of fatal epidemics. And fatal cases of sickness among the children are very rare.

The population of the town is over two thousand. Improvements are continually going on. The sanitary regulations of the place are strictly carried out; so that there need be no fear of summer epidemics.

Kinston is a most desirable place for a residence to those desiring to educate their children.

——(‡)——

—RELIGIOUS PRIVILEGES—

Four Christian denominations have churches here, viz: DISCIPLES, EPISCOPALIANS, BAPTISTS and METHODISTS. The students, (boarders), have the privilege of attending any church which their parents may elect.

—WHEN TO ENTER SCHOOL—

It is a matter of very serious importance to pupils that they enter at the beginning of terms. It imposes a heavy burden upon a student to be compelled to "make up" back lessons. And, when a few weeks have passed, it is almost impossible for the late-coming boy or girl to catch up with the class.

——(‡)——

—EXTENT OF DISCIPLINE—

The Principal claims that his authority over pupils exists as long as they remain members of the school, wherever they may be. He surely should have the right to decide what kind of conduct brings disgrace upon the school.

All boarders are considered as under the special supervision of the Principal, whether boarding with him or not.

——(‡)——

—DAILY PROGRAM OF SCHOOL WORK—

A notice bell is rung at 8.30 A. M. At 9, the school assembles in the chapel.

After roll-call, there is reading of a portion of Scripture and prayer by the Principal. Then a short, select quotation from some eminent author is dictated, to be written by every student. This quotation is recited from memory the next day.

After recitation of quotation, the pupils of the Primary Department and the young ladies march out, to music, to their respective rooms. Then the regular recitations begin.

There is a recess at 10.45 A. M. of ten minutes. At 12.30 there is a noon recess of twenty minutes.

At 2 P. M. the students of Primary Department are dismissed. At 3 P. M. there is another assembly of all the remaining students in the chapel. The roll is corrected, tardies are marked, remarks by Principal, and dismissal—pupils marching out to music.

—HISTORICAL SKETCH OF KINSTON COLLEGE—

——(‡)——

On the 24th May, 1882, a number of gentlemen of Kinston and of Lenoir county organized the "Kinston College Stock Company," Col. Jno. C. Washington was elected President and Mr. N. D. Myers, Vice-President, Dr. V. E. Weyher was elected Secretary and Dr. H. O. Hyatt, Treasurer.

Stock to the amount of three thousand dollars was subscribed and a lot purchrsed at the eastern limits of Kinston. A large, framed, two-story building, was ready for occupation on September 1st of same year.

Dr. R. H. Lewis, a graduate of the University of N. C., and also of Medical Department of University of Pennsylvania, with an experience of sixteen years as teacher, was elected Principal. Dr. L. had, for the preceding five years, been Principal of Kinston Collegiate Institute.

Mrs. R. H. Lewis was elected Superintendent of the Primary Department; Mrs. Anna L. Davis was elected Music Teacher. The other teachers were to be selected by the Principal.

CORNER-STONE CEREMONIES.

The corner stone, a granite block from Raleigh, a present from Gov. Jarvis, was laid with appropriate ceremonies on the 29th August, 1882. The oration on the occasion was pronounced by Hon. Kemp P. Battle, L.L.D., President of the University. The ceremonies were under the supervision of Rev. Israel Harding, Rector of St. Mary's Episcopal Church, Kinston, and assisted by Rev. F. D. Swindell, Pastor of the Methodist Church in same town.

FIRST TERM.

On Monday, September 4th, 1882, the first term began. During the first day, ninety-one pupils were registered. Before the close of first term, one hundred and twenty-three pupils had been registered. At the close of the first annual session, the number had reached one hundred and fifty-three.

SECOND YEAR.

One hundred and fifty-five students were in attendance during the second year.

THIRD YEAR.

For the third year of the College, one hundred and fifty-five pupils were registered.

FOURTH YEAR.

During the present year one hundred and sixty-eight pupils have entered the school, of which sixty-nine are males, and ninety-nine females.

ANNUAL ORATORS.

At the first Commencement, June 1883, Mr. F. M. Busbee, of Raleigh, was the Orator.

In June, 1884, Prof. E. M. Poteat, of Wake Forest College, delivered the address.

In June, 1885, Mr. William G. Burkhead, of Goldsboro, was the Speaker.

At the coming Commencement, June 3rd, 1886, Mr. Clement Manly, of New Berne, will deliver the address.

——(‡)——

—ANNUAL SESSIONS—

The scholastic year, or annual session, begins on the first Monday in September and ends on the first Thursday in June following.

TERMS.

FALL TERM begins first Monday in September and ends fourth Friday in December, a period of FOUR school months.

SPRING TERM begins first Monday in January and ends on first Thursday in June, a period of five and a half months.

EXAMINATIONS

Oral and written examinations are held during last week of each term, and pupils are promoted according to proficiency.

—MUSEUM AND MINERALOGICAL CABINET—

——(‡)——

Rev. E. M. Forbes, of Beaufort, N. C., at the organization of the College, generously gave it a very handsome and varied collection of Minerals, Shells, Coins, Gems and Curios, representing all parts of the habitable world. And, from time to time, the reverend donor has continued to add to this collection. The original gift embraced several hundred specimens.

Many friends of the College have added, at various times, several hundred other valuable specimens.

Below will be found a list of contributions, with names of donors, sent in since the issue of the previous Catalogue:

Specimen of Alabama pipe-clay, by W. E. Darden.

Mica and Copper Ore, by Prof. Geo. D. Meares.

Variegated water-worn Pebbles from Lakes Erie and Michigan, by Fred. C. Loops, Esq.

Skull of American Buzzard, Old Revolver Pistol and 5 cent "Greenback," by Lawrence Ballard.

U. S. Army buckles found on battlefield Wise' Fork, by same.
